

TOILET TISSUE DISPENSER

MATERIAL: Bracket - Made of die cast aluminum
Spindle - Made of gray plastic with steel pin and spring

CAPACITY: 813 - One standard core toilet tissue roll
814 - Two standard core toilet tissue rolls

OPERATION: Remove tissue roll core to access locking mechanism. Pull spring lock pin to detach spindle. Stops on spindle restricts spindle to 1/2 revolution per each dispensing operation. Spindle returns to original position automatically. Secure to wall with mounting screws at holes provided.

FEATURES:

- Anti-theft spindle pins discourage theft
- Spindle stops for controlled delivery of tissue
- Rocking action returns roll for next operation
